

Plié Shelving System by FROM INDUSTRIAL DESIGN

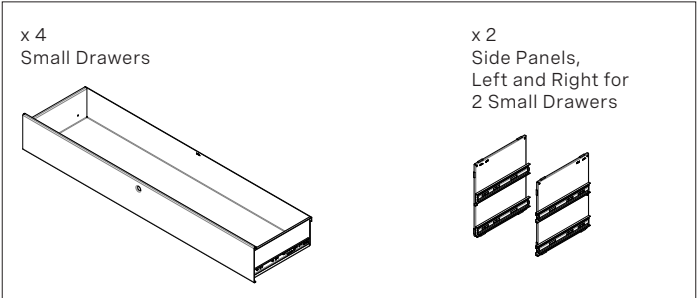

Assembly Instructions
Wall Mount Extension
4 Small Drawers or 2 Big Drawers

These quick steps will guide you throughout the assembly of the Wall Mounted Extensions Units with drawers:

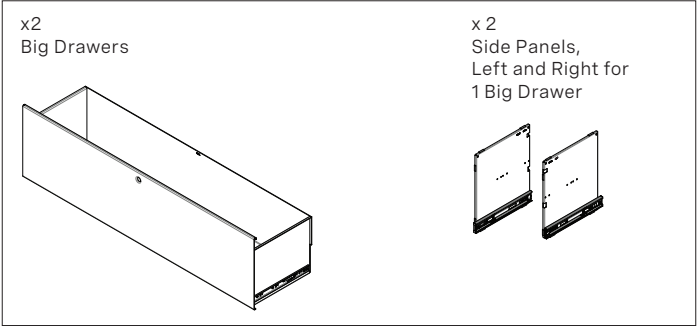

Please make sure you have all the parts needed before starting the assembly of your unit.

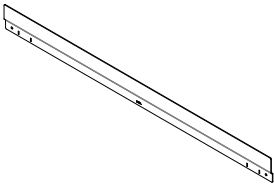

Drawer setup for the Plié Extension 4 Small Drawers

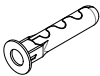

Drawer setup for the Plié Extension 2 Big Drawers

x 2
Wall Mounting Bars

Hardwall fixing screws

Wall Screws

1 Prepare the side panels of the drawer by inserting the rubber edge guards and setting them aside.

NOTE:
If your configuration
has Big Drawers you
should see these
side panels.

2 Begin by arranging the components on a soft surface, such as a carpet or blanket. Assemble the left bottom shelf first. Position the back of the shelf against the floor, and initially tighten the screws by hand before using the keys to secure them.

x 2
Washers

- 4** Move on to the middle section, and connect the previously assembled bottom shelf to both the middle panel and the right bottom shelf.

- 5** Collect all the necessary parts for the top shelf, as you'll need to sandwich the middle panel between the right and left drawer panels.

6 Attach the last side and right drawer panels, using the same method as described in steps 2 and 3.

7 Screw in the two small back screws.

x 4
Nuts

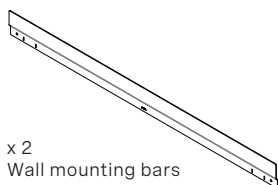

x 4
Washers

12 mm

- 8** Now that the unit is nearly complete, mark the spots where the wall mounting bars will be fixed. Use the indicated measurements for both 180cm and 240cm extensions.

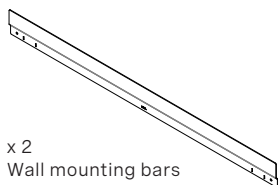

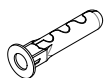

For the 240 cm Extension

For the 180 cm Extension

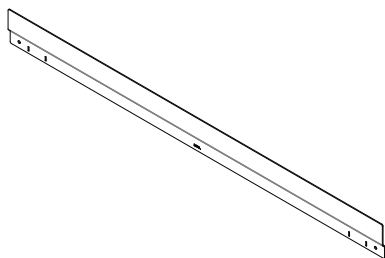

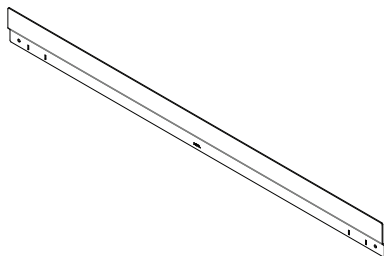

9 After drilling the holes fix the two wall mounting bars to the wall.

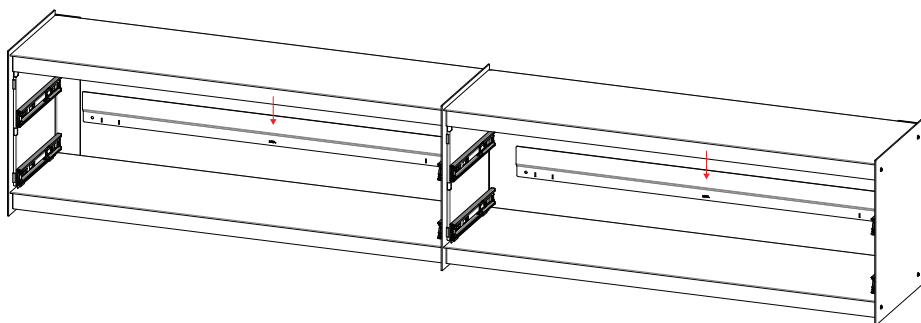

x4
Wall Plugs

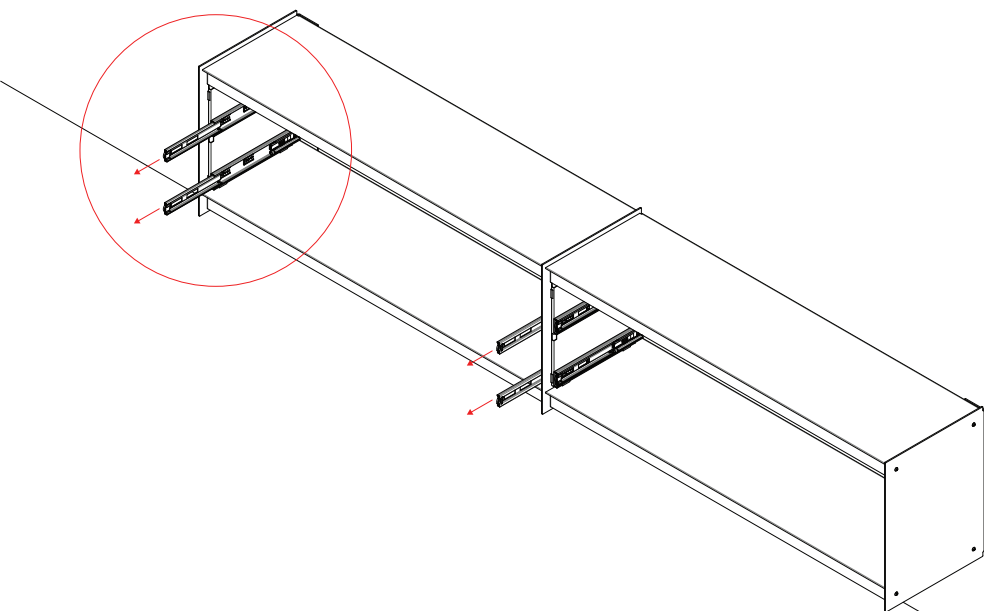

x4
Wall Screws

- 10** It's recommended to have someone assist you during this step. Position the back of the unit against the wall, align the top shelves with the fixing bars, and slide them onto the bars.

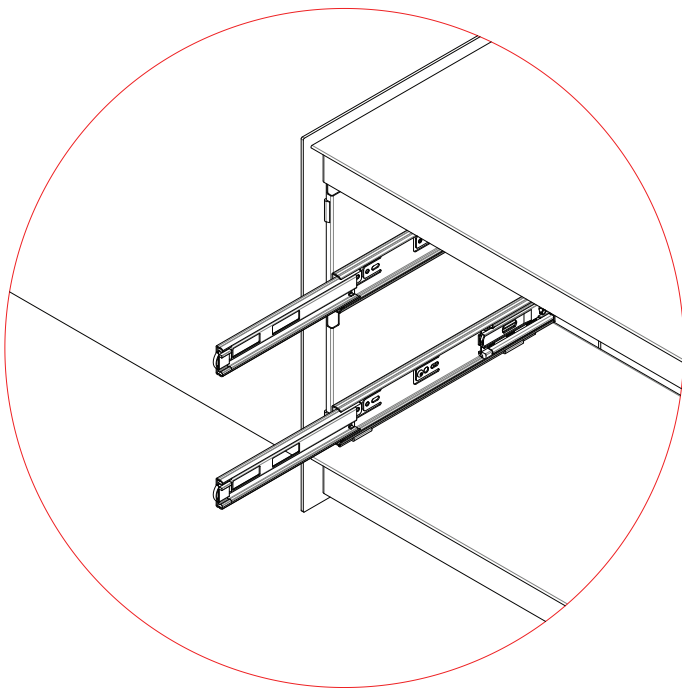

11 Pull out the sliders to make it easier to align the drawers.

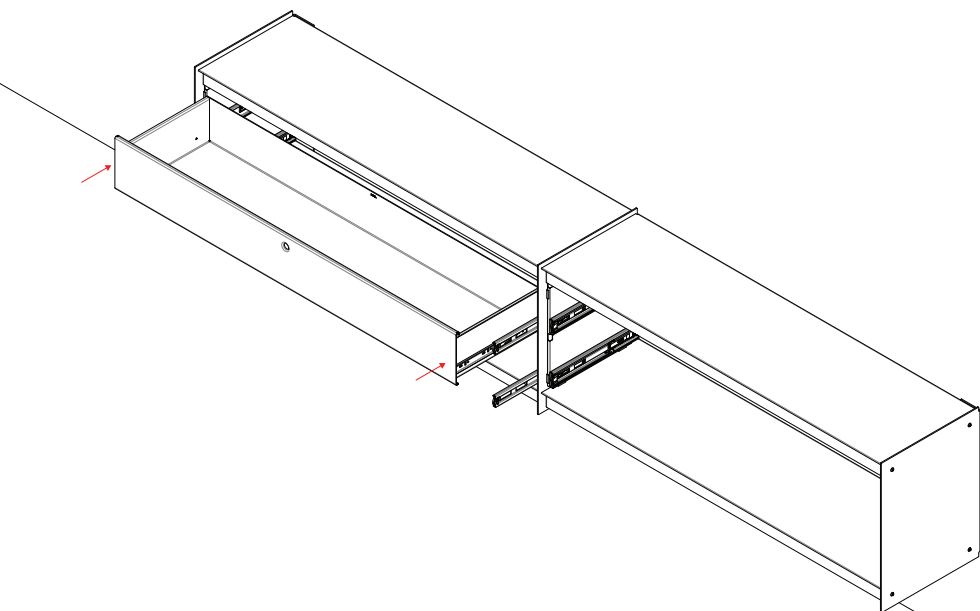

NOTE: If your selected unit is with two big drawers you should have the side panels with only one drawer slider.

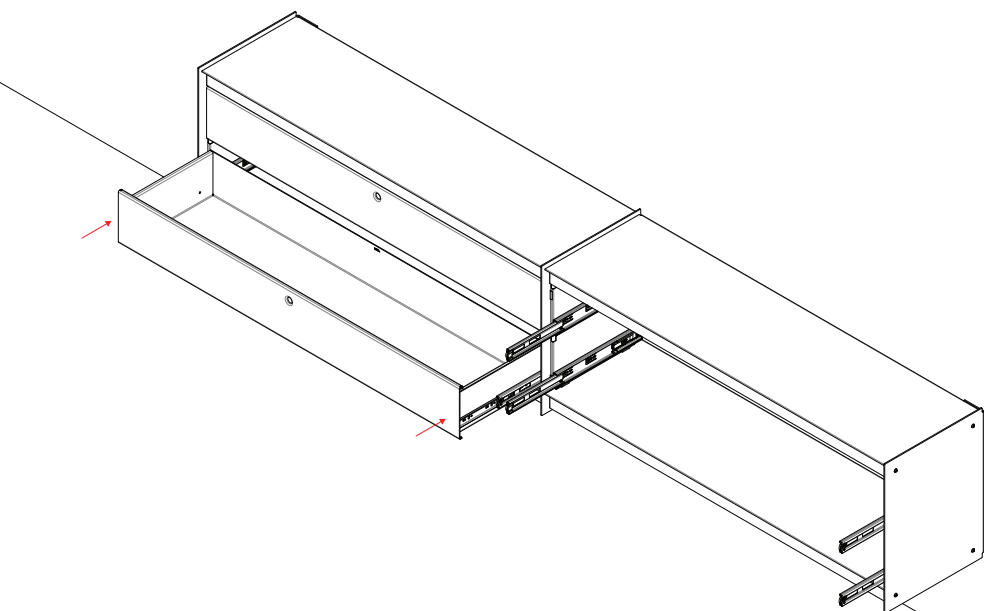

12 Carefully insert the drawer. Listen for a "click" on both sides when pulling it in, indicating that the drawer slider has been properly mounted.

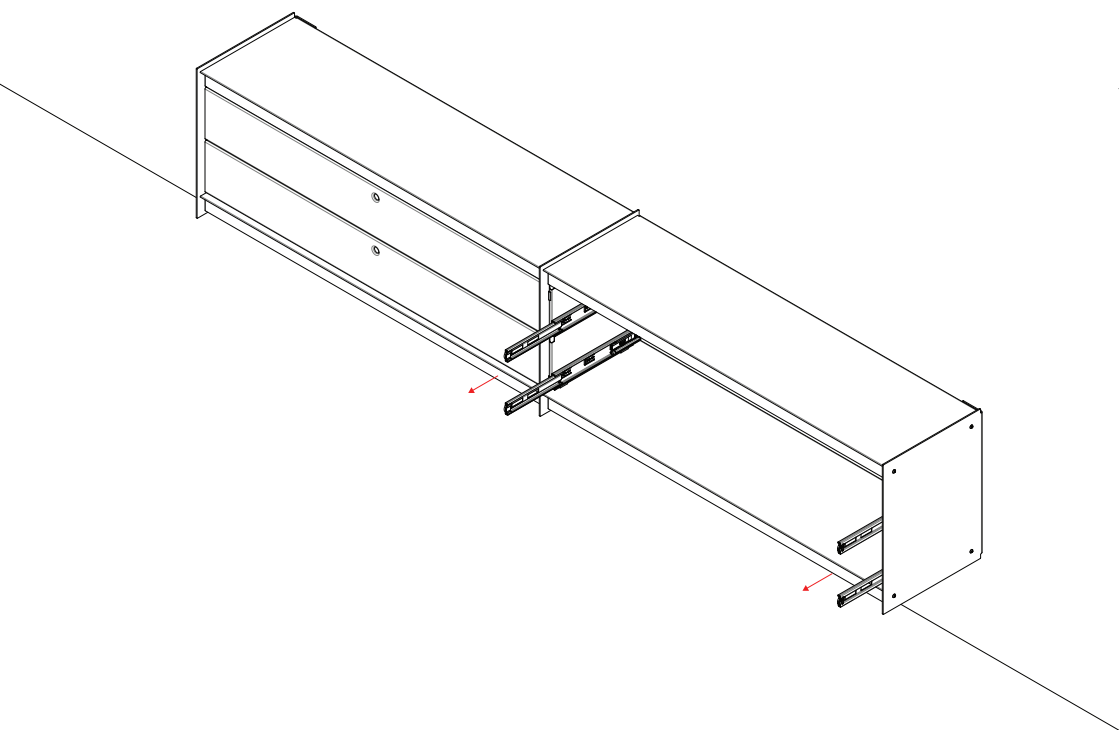

NOTE: The 120 cm drawers might be a bit tricky for a single person to assemble.

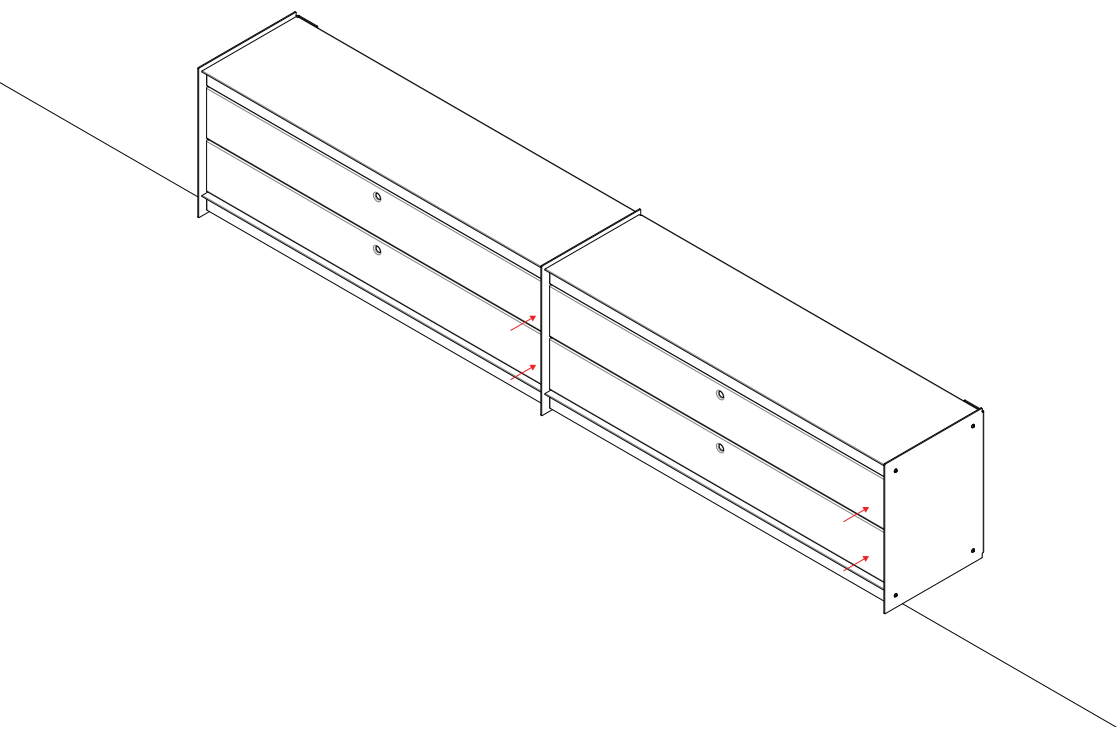

13 Repeat the same for the bottom drawer.

14 And again to the remaining drawers.

15 That's it, your unit is now ready to be used.

UTIL

Founded in 2017, UTIL is a Lisbon based design brand with a clear focus on enduring and functional storage furniture made from high quality materials. Transcending product design, UTIL's philosophy of simplifying and focusing on the essential is inspired by people and everyday life, every piece of the formally simple and architectural influenced collection is made to last a lifetime.

FROM INDUSTRIAL DESIGN

Is a collaboration between Cesare Bizzotto and Tobias Nitsche. The italo-german duo met during their masters degree in ECAL, Switzerland. Since then been developing industrial products in the fields of furniture and lighting. They are known for developing inovative and forward thinking solutions while always keeping and edge in their aesthetics.
